

3.2

The Lowly Paramecium

- ① Why is the cell membrane important?
- ② What are the 2 functions of the cilia?
- ③ What are the functions of water-expelling vesicle? What would happen if it stopped working?

④ What is the evidence that paramecia are living? Give examples of how they do each of the functions of living things.

⑤ Explain how paramecium reproduce. Provide a NUR to help 'show' your response
